

For the Selkirk, Cabinet, Purcell hiking group, hike one for 2020 will be Wednesday, April 22nd from MacArthur Lake Park to and through the Wyman Refuge.

We will leave from the park at the North end of MacArthur Lake at **9:00AM**.

Here is the [Wyman Wildlife Refuge Hikes Folder](#). Due to social distancing we will not be going to Jim and Kathy Richardson's this year.

The Wyman Wildlife Refuge Trails: once we went over and around Dodge Creek, plus took old road to a couple homesteads on the side. Another time we took the Double-cross Trail (crosses Dodge Creek Twice). Another time we took the Bond Lake Loop and rest of the Refuge trail. Another time we hiked around Bradley Lakes, "The Castle" and its estate grounds. This time we will just walk the Wyman Trail from MacArthur Lake for a little more than a 5-mile hike. Here are some [pictures from the Double-cross trail](#) and here are pictures of [Wyman trees from a 2014 hike](#).

Plus, see my [Hiking Blog](#) for more information and great views of Boundary County.
