PM Blog Scorecards and Dashboards Folder

The purpose of this document is to list the Scorecards and Dashboards folder documents of the Power Measurement documents. Included in the list are the introductory purpose paragraph, a link to the document on line and the copyright date. The first list will be by date newest first. The second list is alphabetical. See new TeamsWin Downloads for latest Blog.

Scorecards

Copyright © 10/27/10 by Robert D. Pace

The purpose of this document is to describe scorecards as measurements by contrasting them with other types of measurements and giving some examples. In doing so, I will use the copyrighted TeamsWin Template of measurements. Before it can be used as a thinking tool or information architecture, or Business Science outline, or any other use, the Template must be understood. As are all meta-models, it is very abstract. So, for several years I have been writing documents and putting them in my website to help people understand the power of this simple tool. Here I am going to describe it in terms measurement and focus and to use it to isolate the definition of scorecards. Scorecards integrate measurements for analysis.
