

Truth Accounts – Law, Prophets, and Mystery

The purpose of this document is to define the truth accounts. Truth is based on the accounts God has set up. Before time when we were designed he wrote the Law on our heart. So, the Law rings true when we read it in the Bible. Since we were each designed for a specific purpose, that purpose rings true when we receive a spiritual heart change. Like legal and spiritual truth, prophetic truth also rings true in history. The prophetic account tells us what to look for, and when it happens we have truth that even non-believers can see. The Bible is probably equal parts prophetic scripture, history, and legal scripture. So, truth is for the present (ethics) the past (confidence) and the future (motivation). At this time in history we are privileged to have seen almost all Biblical prophecies proven true (all but the beginning of the last seven years of human government). Many of us have experienced the ringing of the ethical and motivational truth. Therefore, all the ringing proves the Bible to be true.

How do you explain Truth?

Truth is unique to the Bible. No other religion has truth. People who deny the existence of God cannot explain truth. The Bible calls them foolish because they run away and hide their eyes from truth. For those who know them, the “train wreck” that happens after they run also becomes prophetic truth. To avoid that wreck, we are warned to stay away from them.

99+% of the wars have occurred to hide truth

I believe most of the wars of history are found in the history of the Saints. Of those 500 or so wars, 99+% are caused by fools hiding their eyes from the truth. It is true that religion is the cause of almost all of the wars. However, a hidden fact found in the history of the saints, the Church was never on both sides of a war. You can see that in prophetic history, backed up miracles. By the way, the Bible says truth is always backed up by the miraculous. Saints are saints because of the miracles. So, find truth by looking at the history of the miraculous.
