Power Measurement – The Meaning of Life: We are Predestined, if

Copyrighted 01/06/05 by Robert D. Pace

The purpose of this document is to define power measurement as the source of meaning for life. Without power measurement, life is meaningless. To know that meaning, we must communicate with God using power measurement. We will explain those statements. At TeamsWin, Power Measurement (business or personal) is our purpose. Think of it as the meaning of your life. God does not force himself on anyone at any time. For example: before time began, he designed each of us for a specific purpose or destination. We are predestined; but, all along the way we must open (sacrifice) our hearts to God to arrive. We are predestined if we communicate with God his way, through the heart.
